

TRIBHUVAN UNIVERSITY INSTITUTE OF ENGINEERING (IOE)
Electronic Devices Circuits (EDC) Course Code: EX 151 Past

Question Bank, Detailed Syllabus & Study Guidebook *Compiled for BE Computer Engineering (BCT) & BE Electronics (BEI)*

Course Overview & Syllabus Blueprint

Semiconductor Physics, Diodes, BJT Small Signal Analysis, JFET/MOSFET Amplifiers, Frequency Response, Feedback Op-Amps.

Examination Weightage & Blueprint

Unit / Chapter	Core Topic Areas	Marks Range	Expected Questions
Unit 1	Fundamental Principles & Formulations	8–12 Marks	Question 1
Unit 2	Core Analytical Techniques	10–14 Marks	Question 2 & 3
Unit 3	Intermediate Applications	12–16 Marks	Question 4 & 5
Unit 4	Advanced Theoretical Concepts	10–14 Marks	Question 6 & 7
Unit 5	Comprehensive Case Problems	10–14 Marks	Question 8
Unit 6	Short Notes & Practical Applications	8–10 Marks	Question 9 & 10

Key Examination Tips for IOE Students

- Always state standard assumptions and definitions before starting derivations.
- Draw neat, labeled schematic diagrams wherever applicable.
- Show every algebraic and calculus step explicitly to maximize step marks.
- Box final numerical results with accurate SI units.

IOE Central Reference Resource This comprehensive study packet is prepared in accordance with the latest IOE syllabus updates.
